

Fairly Traded Organics
ORGANIC SUGAR CANE ALCOHOL

All phases of the production process, including fermentation, distillation, packaging and shipping are done according to strict organic guidelines.

organoleptic characteristics

The chemical analysis shows the following standards results:

Parameters	Units of Measure	Minimum	Maximum
Specific Weight		.8125	.8200
Alcohol Content by Volume	ml/100ml	94.5	96.0
Fixed Residue at 100° C	g/100ml	0	5.0
Total Acidity	g/100ml	0	3.0
Aldehydes	g/100ml	0	6.0
Higher Alcohols (Isobutanol)	g/100ml	0	6.0
Alkalinity	g/100ml	0	negative
Product Aspects	Clean liquid, transparent , Characteristic smell
